

# Potential for Disaster?

**WATER**

**Flooding and water damage. Possible causes:** Storms, bursting/leaking pipes, major drain clogs, faulty household appliances, leaking roof or windows, HVAC issues, improperly sloped landscaping.

**WIND**

**Exterior wind and weather damage. Possible causes:** Existing problems with shingles and roof, airborne objects during a storm, loose siding and shutters, damaged flashing, hail and wind, improperly installed roof (i.e. valleys, flashing).

**SEWAGE**

**Sewage backup or leaks. Possible causes:** Toilet clogs, main stack, floor drains, broken or leaking pipes.

**MOLD**

**Mold growth in the house. Possible causes:** cracked foundation, leaking pipes, damaged roof, poor ventilation, undetected water intrusion.

**FIRE**

**Home or business fire. Possible causes:** malfunctioning electrical wires, outdoor fires with high winds, dirty or clogged chimney, candles, faulty appliances.
